# Crown at a Glance

We all have those “once a year” experiences- the yearly check-up with a physician; a state of the union speech; an annual report. It was decided to use this issue of In the Crown to provide a one-page, annual report of Crown Center in 2016. It is an attempt at using a snapshot to tell the story that should be a feature length film. How can a compilation of numbers and facts convey our challenges and successes? How can we make the people real and their stories straightforward? How do we show the interactions that take place, the friendships formed, and the lively discussions (that happen in at least 3 different languages) in this report? Is it possible to explain how someone’s dignity was retained, a decline prevented, independence bolstered? No. There is no way to capture all of this. However, we hope that the information presented here will add to your overall panoramic, full color picture of Crown Center and all that it is — a vibrant, active and caring community.
