Do you Sudoku?

The rules of the game are simple: each of the nine blocks has to contain all the numbers 1-9 within its squares. Each number can only appear once in a row, column or box. The difficulty lies in that each vertical nine-square column, or horizontal nine-square line across, within the larger square, must also contain the numbers 1-9, without repetition or omission.

Every puzzle has just one correct solution.

	5				4		6	
3				6	8	2		
4	6			9				1
					1		4	
	3	4		5		7	2	
	9		2					
6				8			7	9
		9	3	2				8
	7		9				5
